

New Chat Widget colors available

2017-05-30 - Zara Marchesi - Kommentarer (0) - Product

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is visible, featuring a 'Label' field with the text 'Click for help', a 'Size' selector with 'Medium' selected, and a 'Colors' section. The 'Background color' is currently set to '#e60300'. A color picker is open, showing a gradient and a 'choose' button. On the right, a preview window shows the chat widget on a website. The widget includes the Google logo, a search bar, and a chat history. A red arrow points from the '#e60300' color code in the settings to the chat widget's background, and another red arrow points from the 'choose' button to the chat widget's background.
