# Trello Helpdesk Integration with Deskpro

2017-05-30 - Zara Marchesi - [Kommentarer \(0\)](#) - [Product](#)

We are really excited to announce that the new *Trello helpdesk integration for Deskpro* is available from v5.6.

## What is Trello?

[Trello](#) is a collaboration tool that organizes your projects into boards. In one glance, Trello tells you what's being worked on, who's working on what, and where something is in a process.

## How do I enable the Trello integration with Deskpro?

From the Admin Dashboard under Apps > Apps you can now install the much anticipated **Trello App**!

Once installed, you will be able to log in with your Trello account and sync this with your Deskpro Helpdesk.

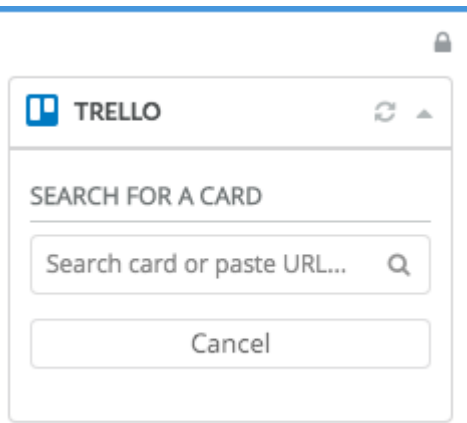

## How do I use Trello with Deskpro?

The new app allows you to Search, Pick and Create cards and link them to Tickets - all in one place! You can then see Tickets within Trello cards that appear in the relevant project boards!

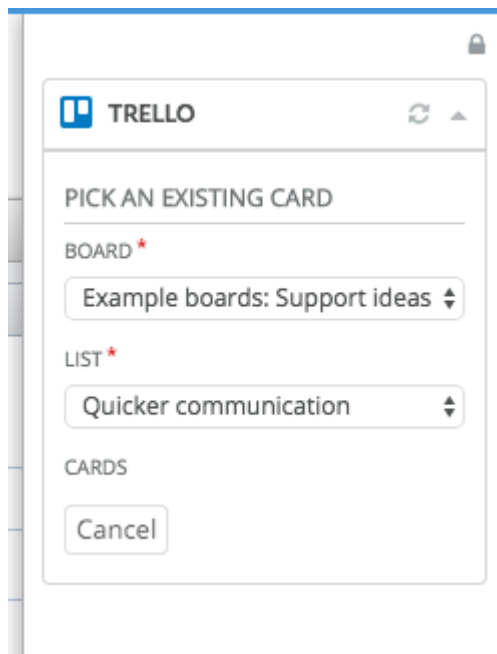

### Searching for cards:

Simply search the name or URL of the card!

**Picking existing cards:**

Simply select the card from an existing board or list!

**Creating a new card:**

Simply Add a title and description and add to a list on a board!
