Geliştirilmiş anti-spam araçları Toplantıda Geri Bildirim

Noticed an amount of spam coming through to our DeskPro account.

We wondered if you had plans in your roadmap to better deal with spam, both:

1. Automatically: e.g. more aggressive filtering and heuristics.
2. Per-sender: e.g. better tools for us to block particular senders.

It would be good to understand your plans here.
