

Deskpro Security

Benedict Sycamore - 2023-08-17 - Yorumlar (0) - Security & Data

Deskpro remains dedicated to always adhering to security best practices throughout the entire organization.

We offer customers an extensive range of customizations, granting them the flexibility to decide how they wish to deploy Deskpro – either on the Cloud or On-Premise (self-hosted), as well as the choice of data storage location.

For our full list of security accreditations and features, please see our [security page](#).
