

## Using the Deskpro API browser

Lewis O'Connor - 2023-09-13 - Yorumlar (0) - Admin

You can browse the Deskpro API and see all of the available operations using the API browser.

[Documentation for API V2](#)

Use the **Show/hide** link to see a list of all the available operations for that given section.

To see more details about each operation, including the available filters and response parameters, simply click **Expand Operations**.

| Deskpro API Documentation |  |                 |                                 |
|---------------------------|--|-----------------|---------------------------------|
| Agents                    | Show/hide                                      | List Operations | Expand Operations               |
| Anti-abuse settings       | Show/hide                                      | List Operations | Expand Operations               |
| Approvals                 | Show/hide                                      | List Operations | Expand Operations               |
| Apps                      | Show/hide                                      | List Operations | Expand Operations               |
| Articles                  | Show/hide                                      | List Operations | Expand Operations               |
| POST                      | /api/v2/article_comments/{article}/rate        |                 | rate article content            |
| GET                       | /api/v2/article_custom_fields                  | CRUD            | Get collection of resources     |
| POST                      | /api/v2/article_custom_fields                  | CRUD            | Create a new resource           |
| DELETE                    | /api/v2/article_custom_fields/{id}             | CRUD            | Delete a resource               |
| GET                       | /api/v2/article_custom_fields/{id}             | CRUD            | Get a resource                  |
| PUT                       | /api/v2/article_custom_fields/{id}             | CRUD            | Update an existing resource     |
| POST                      | /api/v2/articles/{article}/icon                |                 | set Icon                        |
| POST                      | /api/v2/articles/{article}/splash_image        |                 | set Splash Image                |
| POST                      | /api/v2/articles/{article}/splash_image_upload |                 | Create Splash Image For Article |
| Auth                      | Show/hide                                      | List Operations | Expand Operations               |
| Batch                     | Show/hide                                      | List Operations | Expand Operations               |
| Blobs                     | Show/hide                                      | List Operations | Expand Operations               |
| Brands                    | Show/hide                                      | List Operations | Expand Operations               |
| Chats                     | Show/hide                                      | List Operations | Expand Operations               |
| Client Devices            | Show/hide                                      | List Operations | Expand Operations               |

See the API browser section of the [Developer Manual](#) for more details about using the browser.
