

DeskPRO Build #337 Released

2014-06-09 - Chris Padfield - Yorumlar (0) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #337.

The following is an automatically generated list of changes in this release:

- NEW Enabled Slovak translation
- FIX Number of issues with the Layout Editor and saving agent layouts
- FIX Field options in layout editor would not update until refresh if you made changes (e.g., enable/disable a field)
- FIX Default checked state for agent permission groups would always be 'on' if agent was member of at least one other group

This update has now been rolled out to all Cloud customers.

If you are using DeskPRO Download, you can update your installation from the admin interface.
