We have simplified creating user profiles

2023-05-15 - Lara Proud - [Yorumlar \(0\)](#) - [Product \(Agent\)](#)

We have made it easier to create a new User profile via the **+ New** button by removing the required contact information fields.

By removing these fields, we have enabled you to create Users with no specific contact details, so you can add as much or as little information as needed to their profile.

The screenshot shows a 'New User' form with the following sections:

- Header:** A blue button labeled 'New' and a tab labeled 'New User'.
- Name Field:** A text input labeled 'Add Name*' with a red asterisk indicating it is required, and a '+ Add' button below it.
- Contact Information:** A section titled 'Contact Information +' containing 'Add Email', 'Add Phone', and 'Label: Add'.
- Organization:** A section titled 'Organization' containing 'Add Organization'.
- Properties:** A section titled 'Properties' containing 'UTC (GMT+0)', 'Language', 'Brand', 'Default', 'Usergroup', and 'Registered'.
- Footer:** A checkbox for 'Send welcome email' and 'Create' and 'Cancel' buttons.

The purpose of this is to make it more convenient to quickly create a User in the helpdesk, even if you aren't currently aware of all their information. Which enables you to update their profile later or fill in additional details about them as it becomes available.
