Agent Avatar Collecting Feedback

- Sophia Mayrwöger
- **Forum name:** #Feature Request

Is it possible to show agent pictures just for internal agents and not for users?

If a user is registered, he is able to see the pictures of our agents and we just want to show the agent-pictures to our employees, who are working in our helpdesk, similar to how it works for chat, we would like this to apply to tickets.

Would it also be possible to restrict the users from having an Avatar?
