

DeskPRO Build #37 Released

2012-07-04 - Chris Padfield - Comments (0) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #37.

The following is an automatically generated list of changes in this release:

- Handle inlining images and attachment links
- Fix weird centering
- Fix delete news
- Couple fixes to sending feedback comment notifications
- Send notifications to feedback author and everyone who commented before when a new comment is added
- Correct phrase for agent reply subject
- Add fadeaway to chat title to stop wrapping and screwing up layout
- Make sidebar sections link to their site section

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
