DeskPRO Build #401 Released

2015-03-23 - Chris Padfield - Comments (0) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #401.

The following is an automatically generated list of changes in this release:

- FIX Malformed HTML in replies sent from agent interface with some agent signatures
- FIX Possible 'Call to a member function toApiData() on a non-object' error when using webhook trigger action

This update is being rolled out to Cloud customers now.

If you are using DeskPRO Download, you can update your installation from the admin interface.
