

New Chat Widget colors available

2017-05-30 - Zara Marchesi - Comments (0) - Product

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is visible, featuring a 'Label' field with the text 'Click for help', a 'Size' selector with 'Medium' selected, and a 'Colors' section. The 'Background color' is set to '#e60300', and the 'Position' is set to 'Right'. A color picker is open, showing a red color selection. On the right, a preview window shows the chat widget on a website with the Google logo. The chat widget includes a 'Sign In' button, a 'Flexforce' header, and a chat history with a 'Sample question' and 'Sample answer'. A red 'Click for help' button is visible at the bottom of the chat widget. Arrows point from the 'Background color' field in the settings to the chat widget's background and the 'Click for help' button.
