Report Labels Collecting Feedback

- Miriam
- 论坛名称: #Feature Request

A way to delete labels that have been created for custom built reports. Currently, you can create labels that can be added to custom reports, but you cannot delete the labels if one was created in error.

<p>Need to have a way to edit the Labels on reports. I have a duplicate label and have changed the duplicate and need a way to remove the duplicate label, so it is not used incorrectly.</p>
