

How do I change the number of news posts shown on the portal home page?

Ben Henley - 2023-08-31 - Comments (0) - Deskpro Legacy

Question:

I want to increase the number of news posts shown on the section of the portal home page highlighted below. How do I show the most recent five articles here?

The screenshot shows the Deskpro Legacy portal home page. At the top, there is a navigation bar with 'AGENT' and 'ADMIN' links. Below that, a welcome message reads 'Welcome to our new Portal. Learn more about about it here -->'. The main content area features a 'Helpdesk' header with a search bar and a 'CONTACT US' button. Below the header are five navigation cards: 'Knowledgebase', 'News', 'Feedback', 'Downloads', and 'Contact Us'. The 'News' card is highlighted with a red box. Below the 'News' card, there is a list of news articles. The first article is titled 'Iste sunt dolorem laudantium aut' by 'Mozell Romaguera' with 1 comment. The second article is titled 'Ut quisquam dolor est quibusdam' by 'Michele Kessler' with 4 comments. At the bottom of the page, there is a 'Knowledgebase' section with a list of articles under the 'General' category.

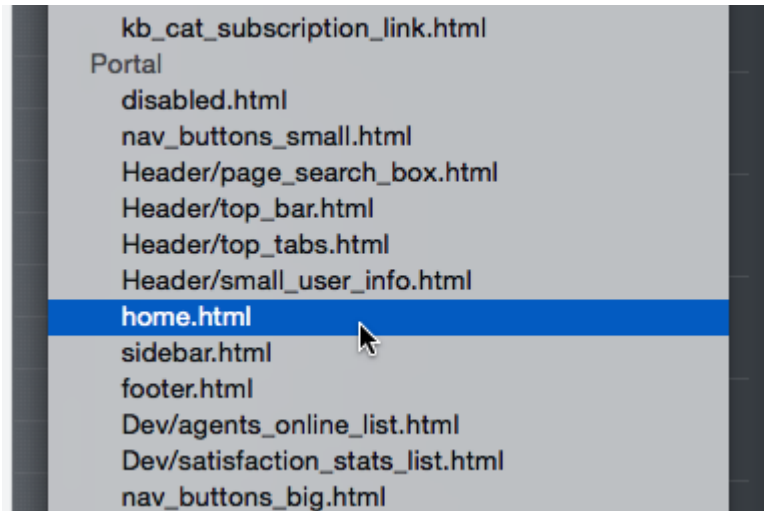

Answer:

You can do this by editing the portal templates.

1. Go to the portal editor at **Admin > User Interface > Portal**.
2. Click the **Template Editor** section at the lower left.

3. In the Portal section, select the **home.html** template.

6. The template editor opens. Find the line that says:

```
{% show section news_list_excerpts with { count: 2, show_category_link: true } %}
```

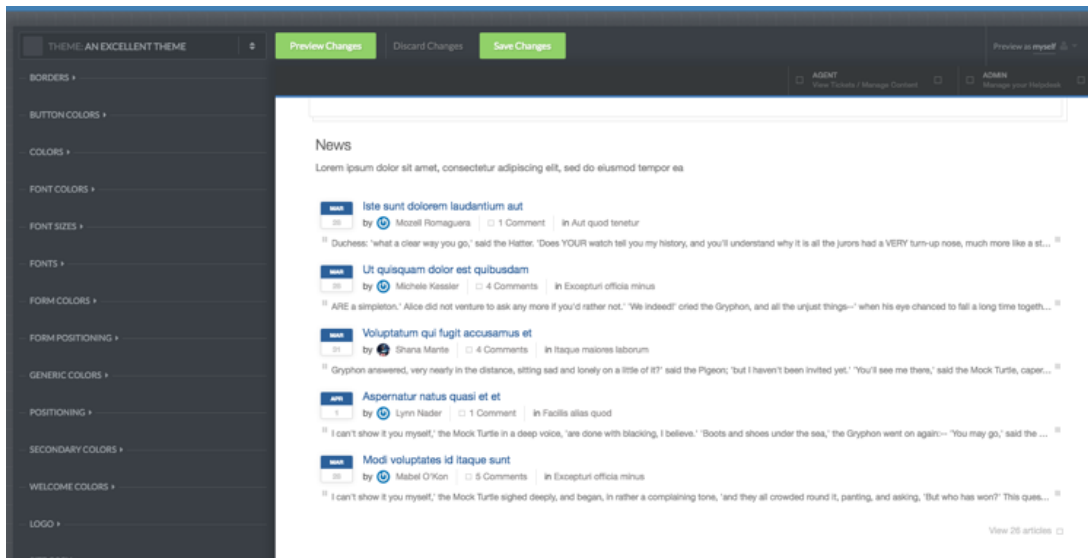

Edit the number in **count: 2** to the desired number of articles: in this case, 5.

A screenshot of a code editor with a dark background. The code is as follows:

```
33  
34     {% if can_use_news() %}  
35     <section>  
36         <article class="news front-page-news">  
37             <div class="large-title">  
38                 <h1>  
39                     <a href="{{ path('portal_news') }}">  
40                         {{ phrase('portal.news.section-title') }}  
41                     </a>  
42                 </h1>  
43                 <p>{{ phrase('portal.news.homepage-desc') }}</p>  
44             </div>  
45             {% show section news_list_excerpts with { count: 5, show_category_link: true } %}  
46         </article>  
47     </section>  
48     {% endif %}  
49
```

7. Click the X at the top right of the template editor to close it.

8. Click the green **Preview Changes** button at the top of the screen to see the effect of the edit and verify that the section now shows five articles instead of two.

9. Click the green **Save Changes** button at the top of the screen to save your edit and apply it to your live portal.
