

Summing Ticket Billing Charges

Ben Henley - 2023-08-24 - [Comments \(0\)](#) - [Reports](#)

If you want to run a query to get the sum of all Billing Charges on a ticket, you can do this:

```
SELECT tickets.subject, DPQL_ALIAS(CONCAT(FLOOR(tickets.charges.charge_time / 3600), ' Hours ',  
FLOOR(MOD(SUM(tickets.charges.charge_time), 3600) / 60), ' mins'), 'Charge Time')
```

```
FROM tickets
```

```
GROUP BY tickets.id AS 'ID'
```
