# Automatically create tasks with relative due dates

2019-09-02 - Colin Dunn - Comments (0) - Product

You don't just need to use your helpdesk for support, and increasing number of clients use Deskpro for change, workflow and <u>task management</u>. A common example we see in <u>HR</u> <u>and Recruitment</u> would be a set of tasks to complete when a new employee joins or leaves a company - however you can apply this process in practically any working environment.

## What has been changed?

As part of our continuing efforts to improve <u>tasks and automations</u> you are now able to configure ticket triggers and escalations which can create a set of tasks for an agent, with **relative due dates.** 

#### Criteria

when	The following of	conditions are met:	
Department	is 🔻 🕷	ew Hire Into a certain	
+ Criteria		department	
ions		Urgent tasks may	
nese actions wil	l apply when all of t	require	
then	The following a	actions will run:	
Create Task Create Task Create Task	Task Title:	Fire and Safety Training	
	Due Date	None ● Relative time ● On a specific date       24     Hour(s) later ▼	
	Public:	✓ Yes	
	Creator:	Current Agent	
	Assignee:	1st Response Crew	
	Link to ticket:	✓ Yes	
	Task Title:	Introduce to a Line Manager	
	Due Date	None   Relative time  On a specific date	
		7 Day(s) later 🔻	
	Public:	✓ Yes       Minute(s) later Hour(s) later     Flexible       timeframe units     timeframe units	
	Creator:	Current Agent Day(s) later for different	
	Assignee:	Support tasks	
	Link to ticket:	✓ Yes	
	Task Title:	Determine Eligibility for Annual Performance Bonus	
	Due Date	None Relative time On a specific date	
		01 November 2019 UTC +9:00	
	Public:	Yes A choice between	
	Creator:	John Doe	
	Assignee:	dates still exists	
	Link to ticket:	Yes	

## When would we use this?

In the above example, we can see there are some main tasks to complete for a new hire.

1. The employee must immediately be familiarised with the fire exits and basic safety guidelines. **Within 24 hours of ticket creation.** 

2. A suitable line manager must chosen for the employee, after they have had a change to settle in. **Within 7 days of ticket creation.** 

-

3. The management team must review the employees Annual Bonus on a specific date.

This has infinite application, from IT Service Management, Sales and Government/Public Sector applications which require robust automation in their tasks and and workflows.

### In summary?

This is a very powerful enhancement to the tasks management system, allowing you to fully automate what has previously been delicate and tiresome workflow. There is now no need for a support manager to repeatedly create or enforce deadlines, the helpdesk will take care of this.

#### How do we get started?

This feature will apply automatically after upgrading to 2019.7. The "Create Task" feature is available in all types of ticket trigger and escalation.
