You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' section is active, showing a color picker for the 'Background color' set to #e60300. A black arrow points from the color picker to the chat widget preview on the right. The preview shows a chat window with a blue header and a red 'Click for help' button. The interface also includes sections for 'Chat settings' and 'Proactive chat settings'.
