We've made it easier to find tickets from specific Users or Organizations

2023-07-27 - Lara Proud - [Comments \(0\)](#) - [Product \(Agent\)](#)

This latest improvement to User and Organization searching in the Global Search app will now make it even easier for agents to find the information they need with a sub-searching functionality.

Building on a previous update, these new features allow agents to drill down into more depth when searching including into an Organization's Users and Tickets, as well as User's Tickets, leading to a more efficient and streamlined search experience.

The screenshot shows the Global Search interface. The search bar at the top contains the text 'Ch'. Below the search bar are buttons for 'Preview', 'Filter', and 'Sort: Date'. The main results section is titled 'Organizations (4)'. It lists one organization, 'Chocoholic', with a thumbnail icon, the name 'Chocoholic', and a user count of 4. Below this, a sub-section titled 'MEMBERS (4)' is shown, with a search bar containing 'Search members...'. It lists four members: 'Aaron Wood' (CEO), 'Anthony Martin', 'Braydon Jackson' (Manager), and 'Jordan Hughes' (Sales Agent). Each member entry includes a thumbnail icon, the member's name, their role, and their email address. To the right of each member entry are icons for users (1k) and tickets (7). At the bottom of the organization card, there is a link to 'Chow Ltd.' with a ticket icon and a user count of 9.

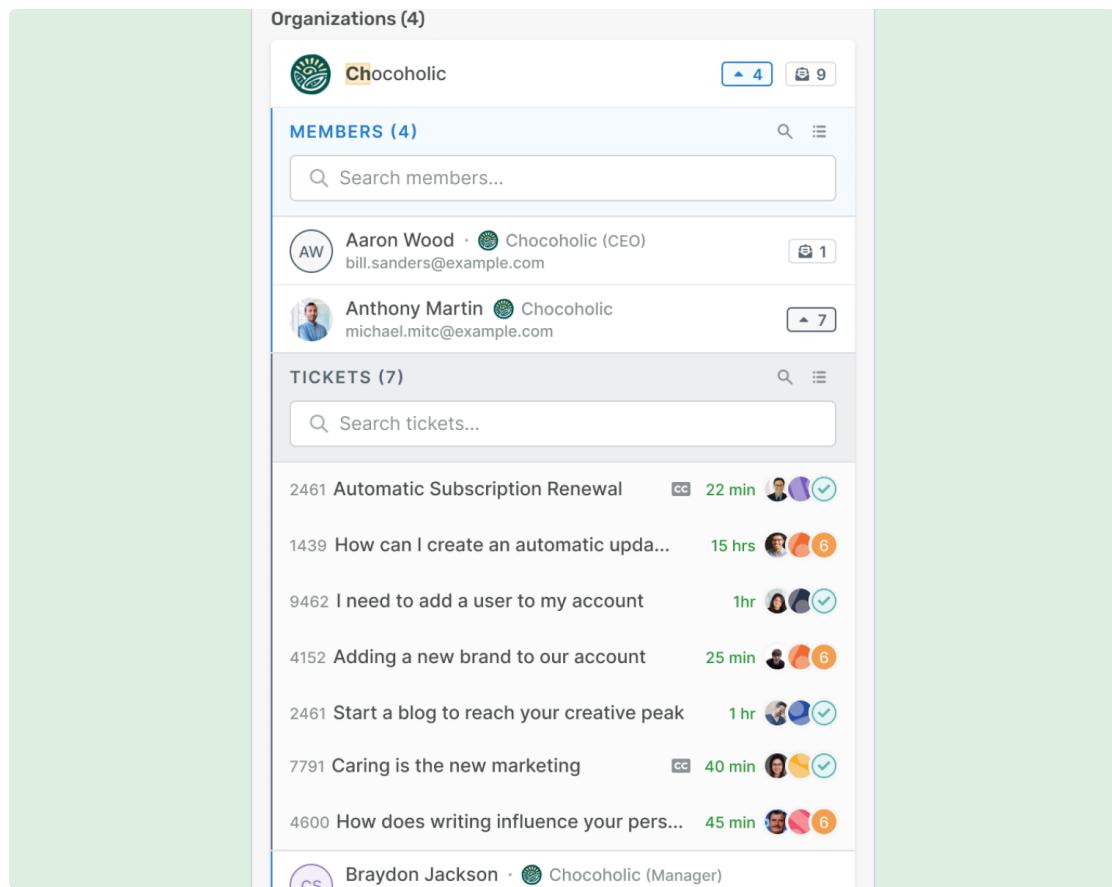

With Organizations at the top level, you can now select the **User** icon to open a list of Organization Members, or select the **Ticket** icon, to open a list of tickets associated with the Organization.

The screenshot shows a close-up of the organization card for 'Chocoholic'. The card displays the organization's thumbnail icon, the name 'Chocoholic', and a user count of 4. To the right of the user count are two small buttons: one for users (1k) and one for tickets (9).

But you can also dive deeper by selecting the Ticket icon next to one of the Organization's members which will

show you a list of their most recent tickets with your helpdesk.

Similarly, with User search, select the Ticket icon to show a dropdown of their recent tickets with your helpdesk.

Plus the **Search** icon above the sub-search bar will open the search in the Ticket Search interface, or selecting the **List** icon will open the results in a list view.
