

We've made it easier to find tickets from specific Users or Organizations

2023-07-27 - Lara Proud - Comments (0) - Product (Agent)

This latest improvement to User and Organization searching in the Global Search app will now make it even easier for agents to find the information they need with a sub-searching functionality.

Building on a previous update, these new features allow agents to drill down into more depth when searching including into an Organization's Users and Tickets, as well as User's Tickets, leading to a more efficient and streamlined search experience.

With Organizations at the top level, you can now select the **User** icon to open a list of Organization Members, or select the **Ticket** icon, to open a list of tickets associated with the Organization.

But you can also dive deeper by selecting the Ticket icon next to one of the Organization's members which will show you a list of their most recent tickets with your helpdesk.

Similarly, with User search, select the Ticket icon to show a dropdown of their recent tickets with your helpdesk.

Plus the **Search** icon above the sub-search bar will open the search in the Ticket Search interface, or selecting the **List** icon will open the results in a list view.
